ACADEMIC REQUIREMENTS POLICY

Students will be deemed to have successfully completed an academic year if the following requirements have been met:

A student:

- studies the course(s) developed or endorsed by the NSW Board of Studies.
- applies him/herself with diligence and sustained effort throughout the course
- completes all assigned tasks
- achieves some or all of the outcomes for the course.

Students are expected to make a genuine attempt at completing all set work. This includes work which is not part of formal assessment.

PAL International staff monitor the academic progression of every student by means of in-class work, in class assessments, homework, assignments, cycle tests and examinations.

SPORTING REQUIREMENTS

All students from Years 7 – 10 inclusive are required to participate in at least one summer and one winter sport. In addition, junior students must participate in the practical part of their PD/H/PE Classes. Sporting participation is optional for Year 11 and 12 students from the beginning of their course.
